**CHAPTER 2 - ENVIRONMENTAL
MANAGEMENT**

**SUBCHAPTER 2B - SURFACE WATER
STANDARDS: MONITORING**

Notice of Rule-making Proceedings is hereby given by the Environmental Management Commission in accordance with G.S. 150B-21.2. The agency shall subsequently publish in the Register the text of the rule(s) it proposes to adopt as a result of this notice of rule-making proceedings and any comments received on this notice.

Citation to Existing Rules Affected by this Rule-Making: 15A NCAC 2B .0223 and .0229. Other rules may be proposed in the course of the rule-making process.

Authority for the rule-making: G.S. 143-214.1

Statement of the Subject Matter: *On September 12, 1989, the Environmental Management Commission (EMC) classified the Tar-Pamlico River Basin as Nutrient Sensitive Waters and subsequently adopted Phase I of the Nutrient Management Strategy. The proposed rule-making would codify the second phase of the Tar-Pamlico River Basin Nutrient Sensitive Waters Management Strategy. This strategy requires additional mandatory measures for point sources (wastewater dischargers) and encourages voluntary actions for nonpoint sources to achieve nutrient loading reductions to the Tar-Pamlico River Basin. The strategy allows point sources the option of joining a group of dischargers in the Tar-Pamlico Basin Association (the Association) and collectively meet the nutrient loading reductions. If the nutrient loading reductions are not met, then the Association is required to fund nonpoint source best management practices to achieve equivalent loading reductions. Mandatory nutrient control requirements for the dischargers who are not members of the Association are being proposed as part of the Phase II strategy. We are seeking comments on the mandatory nutrient control requirements for the dischargers who are not members of the Association.*

Reason for Proposed Action: *The EMC gave the Division of Environmental Management staff permission to proceed to public hearing on the nonpoint source offset requirements for wastewater dischargers in the Tar-Pamlico River Basin who are not members of the Association. The proposed rule modifications and additions will serve to codify the EMC-approved Tar-Pamlico River Basin Nutrient Sensitive Waters Management Strategy and to allow public comment on the proposal to require new and expanding wastewater dischargers not in the Association to offset their additional nutrient loads by funding nonpoint source control programs approved by the Division of Environmental Management.*

Comment Procedures: *The purpose of this announcement is to encourage those interested in this proposal to provide written comments. Written comments, data or other information relevant to this proposal must be submitted by July 1, 1996. It is very important that all interested and potentially affected persons or parties make their views known to the EMC whether in favor of or opposed to any or all provisions of the proposal being noticed. If you are opposed to any or all of this proposal, then you are encouraged to offer appropriate alternative proposals. Written comments may be submitted to:*

**TITLE 10 - DEPARTMENT OF HUMAN
RESOURCES**

Notice is hereby given in accordance with G.S. 150B-21.2 that the Social Services Commission intends to adopt rules cited as 10 NCAC 41F .0707, .0813 - .0814; amend rules cited as 10 NCAC 41F .0705; 42V .0201, .0802 - .0803; and repeal rules cited as 10 NCAC 41F .0706, .0812.

Proposed Effective Date: April 1, 1997.

A Public Hearing will be conducted at 10:00 am on June 5, 1996 at the Albemarle Building, Room 943-2, 325 N. Salisbury Street, Raleigh, NC 27603.

Reason for Proposed Action: 10 NCAC 41F .0706, .0707, .0812, .0813 - The adoption and repeal of these rules is necessary to implement revisions made by the 1995 Session of the NC General Assembly to G.S. 131D-10.2 and 10.3 requiring criminal history checks on foster parents. 10 NCAC 41F .0707 specifies the foster parent requirements. 10 NCAC 41F .0813 specifies the supervising agency requirements. 10 NCAC 41F .0706 and .0812 need to be repealed due to statutory changes for the definitions of criminal history and foster parent. 10 NCAC 41F .0705, .0814 - In 1995, the General Assembly passed legislation requiring that training be provided to foster and adoptive parents. It required that foster and adoptive parents participate in 30 hours of pre-service training and that foster parents participate in 10 hours annually of in-service training in order to maintain their foster home licenses. This request to adopt training requirements for adoptive parents and amend training requirements for foster parents is made to assist county departments of social services in implementing this legislation. 10 NCAC 42V .0201, .0802, .0803 - Current Administrative Rules for Adult Protective Services (APS) do not allow the county departments of social services to share needed information with the criminal justice system for the purpose of investigations and prosecutions in abuse, neglect, or exploitation cases. District Attorney's offices and law enforcement agencies need the names of potential witnesses as well as other specific, relevant information obtained during the course of the APS evaluation. These amendments will allow county departments of social services to share information about an APS case with the criminal justice system. These rules were filed as temporary amendments effective December 12, 1995.

Comment Procedures: Comments may be presented in writing any time prior to or during the hearing. Comments may also be presented orally at the public hearing. Time limits for oral remarks may be imposed by the Commission Chairman. Any person wishing to

Any licensee desiring renewal of a license shall apply for renewal within 45 days prior to license expiration by submitting a renewal application on a form prescribed by the Commission and submitting with the application the required renewal fee of thirty dollars (\$30.00).

(b) ~~Beginning in 1995, any~~ Any person desiring to renew his license on active status shall, upon the second renewal of such license following initial licensure, and upon each subsequent renewal, have obtained all continuing education required by G.S. 93A-4A and Rule .1702 of the Subchapter.

(c) A person renewing a license on inactive status shall not be required to have obtained any continuing education in order to renew such license; however, in order to subsequently change his license from inactive status to active status, the licensee must satisfy the continuing education requirement prescribed in Rule .1703 of the Subchapter.

(d) Any person or ~~corporation~~ firm which engages in the business of a real estate broker or salesman while his or its license is expired is subject to the penalties prescribed in G.S. 93A.

Authority G.S. 93A-3(c); 93A-4(c),(d); 93A-4A; 93A-6.

.0504 ACTIVE AND INACTIVE LICENSE STATUS

(a) Except for licenses that have expired or that have been revoked, suspended or surrendered, all licenses issued by the Commission shall be designated as being either on active status or inactive status. The holder of a license on active status may engage in any activity requiring a real estate license and may be compensated for the provision of any lawful real estate brokerage service. The holder of a license on inactive status may not engage in any activity requiring a real estate license, including the referral for compensation of a prospective seller, buyer, landlord or tenant to another real estate licensee or any other party. A licensee holding a license on inactive status must renew such license and pay the prescribed license renewal fee in order to continue to hold such license. The Commission may take disciplinary action against a licensee holding a license on inactive status for any violation of G.S. 93A or any rule promulgated by the Commission, including the offense of engaging in an activity for which a license is required while a license is on inactive status.

(b) Upon initial licensure, a salesman's license shall be assigned by the Commission to inactive status and the license of a broker or ~~corporate broker~~ firm shall be assigned to active status. ~~The license of a broker, salesman or corporate broker~~ A license shall be assigned by the Commission to inactive status upon the written request of the licensee. A salesman's license shall be assigned by the Commission to inactive status when the salesman is not under the active, personal supervision of a broker-in-charge. A ~~corporate broker's~~ firm's license shall be assigned by the Commission to inactive status when the ~~corporation~~ firm does not have a principal broker. A broker or salesman shall also be assigned to inactive status if, upon the second renewal of his license following initial licensure, or upon any subsequent renewal, he has not satisfied the continuing education requirement described in Rule .1702 of this Subchapter.

(c) A salesman with an inactive license who desires to have such license placed on active status must comply with the procedures prescribed in Rule .0506(b) of this Section.

(d) A broker with an inactive license who desires to have such license placed on active status shall file with the Commission a request for license activation on a form prescribed by the Commission containing identifying information about the broker, ~~a list of Commission approved continuing education courses completed by the broker within the previous 30 days~~, a statement that the broker has satisfied the continuing education requirements prescribed by Rule .1703 of this Subchapter, the date of the request, and the signature of the broker. Upon the mailing or delivery of this form, the broker may engage in real estate brokerage

activities requiring a license; however, if the broker does not receive from the Commission a written acknowledgment of the license activation within 30 days of the date shown on the form, the broker shall immediately terminate his real estate brokerage activities pending receipt of the written acknowledgment from the Commission. If the broker is notified that he is not eligible for license activation due to a continuing education deficiency, the broker must terminate all real estate brokerage activities until such time as the continuing education deficiency is satisfied and a new request for license activation is submitted to the Commission.

(e) A firm with an inactive license which desires to have its license placed on active status shall file with the Commission a request for license activation on a form prescribed by the Commission containing identifying information about the firm and its principal broker. If the principal broker has an inactive license, he must satisfy the requirements of Paragraph (d) of this Rule. Upon the mailing or delivery of the completed form by the principal broker, the firm may engage in real estate brokerage activities requiring a license; however, if the firm's principal broker does not receive from the Commission a written acknowledgment of the license activation within 30 days of the date shown on the form, the firm shall immediately terminate its real estate brokerage activities pending receipt of the written acknowledgment from the Commission. If the principal broker is notified that the firm is not eligible for license activation due to a continuing education deficiency on the part of the principal broker, the firm must terminate all real estate brokerage activities until such time as the continuing education deficiency is satisfied and a new request for license activation is submitted to the Commission.

The Codifier of Rules has entered the following temporary rule(s) in the North Carolina Administrative Code. Pursuant to G.S. 150B-21.1(e), publication of a temporary rule in the *North Carolina Register* serves as a notice of rule-making proceedings for a permanent rule that does not differ substantially from the published temporary rule.

TITLE 13 - DEPARTMENT OF LABOR

Rule-making Agency: *NCDOL, Division of Occupational Safety & Health*

Rule Citation: *13 NCAC 07F .0101*

Effective Date: *April 1, 1996*

Findings Reviewed by the Codifier of Rules: *Approved*

Authority for the rule-making: *G.S. 95-131; 95-133; 150B-21.1*

Reason for Proposed Action: *This Rule will require employers to make changes to the level of air contaminants to which their employees are exposed if working with specified substances. Technical errors have been found in the newly approved "Limits for Air Contaminants" table which would create requirements that are technologically infeasible or would create the potential for a serious health hazard to exposed employees. There is an immediate need to change the errors prior to the April 1, 1996 effective date.*

Comment Procedures: *Written comments will be accepted on the proposed corrections for 60 days after publication in the NC Register. Comments should be provided to Jill F. Cramer, Rule-making Coordinator, NCDOL/OSHA, 319 Chapanoke Road, Suite 105, Raleigh, NC 27603-3432.*

CHAPTER 7 - OFFICE OF OCCUPATIONAL SAFETY AND HEALTH

SUBCHAPTER 7F - STANDARDS

SECTION .0100 - GENERAL INDUSTRY STANDARDS

.0101 GENERAL INDUSTRY

(a) The provisions for the Occupational Safety and Health Standards for General Industry, Title 29 of the Code of Federal Regulations Part 1910, are incorporated by reference except as follows:

- (1) Subpart H - Hazardous Materials, 29 CFR 1910.120, Hazardous waste operations and emergency response, §1910.120(q)(6) is amended by adding a new level of training:

"(vi) First responder operations plus level. First responders at operations plus level are individuals who respond to hydrocarbon fuel tank leaks where the leaking tanks contain a hydrocarbon fuel which is used to propel the vehicle on which the tank is located. Only those vehicles designed for highway use or those used for industrial, agricultural or construction purposes are covered. First responders at the operations plus level shall have received at least training equal to first responder operations level and, in addition, shall receive training or have had sufficient experience to objectively demonstrate competency in the following areas and the employer shall so certify:

- (A) Know how to select and use proper specialized personal protective equipment provided to the first responder at operations plus level;
- (B) Understand basic hazardous materials terms as they pertain to hydrocarbon fuels;
- (C) Understand hazard and risk assessment techniques that pertain to gasoline, diesel fuel, propane and other hydrocarbon fuels;
- (D) Be able to perform control, containment, or confinement operations for gasoline, diesel fuel, propane and other hydrocarbon fuels within the capabilities of the available resources and personal protective equipment; and
- (E) Understand and know how to implement decontamination procedures for hydrocarbon fuels."

- (2) Subpart I -- Personal Protective Equipment -- 29 CFR 1910.132, General requirements, is amended at 29 CFR 1910.132(b) to read:

"(b) *Equipment.* (1) *Employer-provided equipment.* It is the responsibility of the employer to provide, at no cost to the employee, all personal protective equipment which the employee does not wear off the jobsite for use off the job.

(2) *Employee-owned equipment.* Where employees provide their own protective equipment, the employer shall be responsible to assure its adequacy, including proper maintenance, and sanitation of such equipment."

- (3) Subpart R -- Special Industries -- incorporation by reference of final rule for 29 CFR 1910.269, Electric Power Generation, Transmission, and Distribution, including Appendices A through E, published in 59 FR (January 31, 1994) pages 4437 - 4475, all typographical and grammatical corrections to 1910.269 as published in 59 FR (June 30, 1994) pages 33660 - 33664, and the amendment to 1910.269(g)(2)(i) as published in 59 FR (August 9, 1994) page 40729, except that 29 CFR 1910.269(g)(2)(v) is amended to read:

"(v) Fall arrest equipment, work positioning equipment, or travel restricting equipment shall be used by employees working at elevated locations more than 4 feet (1.2 m) above the ground on poles, towers or similar structures if other fall protection has not been provided. A fall protection system as defined in 29 CFR 1926, Subpart M - *Fall Protection*, is required to be used by all employees when ascending, descending or changing locations on poles, towers or similar structures. However, the use of non-locking snap hooks with any fall protection system is prohibited as of July 1, 1995. Qualified employees may free climb wood poles if the employer can ensure (1) that the employee is able to comfortably and safely grip the pole with both hands while climbing, (2) that the pole is free from attachments or any configurations of attachments that will materially impair the ability of a qualified employee to safely free climb the pole, (3) that the pole is otherwise free from impediments, contaminants or conditions of any type, including but not limited to ice, high winds or chemical treatments which materially impair the ability of a qualified employee to safely free climb the pole, and (4) that the employee is able to climb such structures without material physical impairments including over-exertion, lack of sleep or other physical stresses."

29 CFR 1910.269 as amended above is effective January 1, 1995, except that employers have until July 1, 1995, to implement the use of locking snap hooks, and employers have until January 1, 1996, to design and implement a system of fall protection for use by employees while ascending, descending or changing locations on towers. Also, 29 CFR 1910.269(a)(2) *Training* is effective January 31, 1995, and 29 CFR 1910.269(v)(11)(xii) is effective February 1, 1996.

- (4) Subpart Z -- Toxic and Hazardous Substances:

- (A) 29 CFR 1910.1000 Air Contaminants:

Revision of 1910.1000 (a) and (f), removal of Table Z-2 and Table Z-3 and re-adoption of revised permissible exposure limits as Table Z-1 as originally published in 54 FR (January 19, 1989) pages 2923 - 2958 as follows:

" §1910.1000 Air contaminants.

An employee's exposure to any substance listed in Table Z-1 of this section shall be limited in accordance with the requirements of the following paragraphs and sections.

(a) **Table Z-1.**(1) *Substances with limits designated by "C" - Ceiling Limits.* An employee's exposure to any substance in Table Z-1, the exposure limit of which is followed by a "C", shall at no time exceed the exposure limit given for that substance in Table Z-1.

(2) *Current permissible exposure limits.* An employee's exposure to any substance listed in Table Z-1 shall not exceed the Time Weighted Average (TWA), Short Term Exposure Limit (STEL) and Ceiling Limit specified for that substance in Table Z-1 under the Current PEL column.

(3) *Skin Designation.* To prevent or reduce skin absorption, an employee's skin exposure to substances listed in Table Z-1 with an "X" in the Skin Designation column following the substance name shall be prevented or reduced to the extent necessary in the circumstances through the use of gloves, coveralls, goggles, or other appropriate personal protective equipment, engineering controls or work practices.

(4) *Definitions.* The following definitions are applicable to the Current PEL column of Table Z-1:

(i) Time weighted average (TWA) is the employee's average airborne exposure in any 8-hour work shift of a 40-hour work week which shall not be exceeded.

(ii) Short term exposure limit (STEL) is the employee's 15-minute time weighted average exposure which shall not be exceeded at any time during a work day unless another time limit is specified in a parenthetical notation below the limit. If another time period is specified, the time weighted average exposure over that time period shall not be exceed at any time during the working day.

(iii) Ceiling is the employee's exposure which shall not be exceeded during any part of the work day. If instantaneous monitoring is not feasible, then the ceiling shall be assessed as a 15-minute time weighted average exposure which shall not be exceeded at any time over a working day.

(5) *Additional Definitions.* The terms "substance," "air contaminant," and "material" are equivalent in meaning for 29 CFR 1910.1000.

(b) and (c) are reserved.

(d) and (e) are not amended.

(f) *Effective dates.* (1) The effective date for the permissible exposure limits specified in the following Current PEL column of Table Z-1 is April 1, 1996.

LIMITS FOR AIR CONTAMINANTS

NOTE: Because of the length of the table, explanatory Footnotes applicable to all substances are given below.

Footnote (1) The PELs are 8-hour TWAs unless otherwise noted; a (C) designation denotes a ceiling limit. They are to be determined from breathing-zone air samples.

Footnote (2) Parts of vapor or gas per million parts of contaminated air by volume at 25 degrees C and 760 torr.

Footnote (3) Milligrams of substance per cubic meter of air. When entry is in this column only, the value is exact; when listed with a ppm entry, it is approximate.

Footnote (4) The CAS number is for information only. Enforcement is based on the substance name.

Footnote (5) Regarding Styrene Only: OSHNC recognizes that the permissible exposure limits for styrene may not be achievable solely through engineering and work practice controls for boat-building and operations comparable to boat building. Comparable operations are those that (1) employ the manual layup and sprayup process, (2) the manufactured items that utilize the same equipment and technology as that found in boat building, and (3) the same considerations of large part size, configuration interfering with air-flow control techniques, and resin usage apply. Examples of operations comparable to boat building would include the manufacture of large above-ground or below-ground storage tanks, large parts for recreational vehicles, and large duct work. Because it is impossible to define in advance every manual layup and sprayup process for which compliance may not be feasible solely through engineering and work practice controls, some guidelines concerning part size and configuration issues are necessary. The primary question for manual layup and sprayup operations is whether the part's size and configuration interfere with normal air-flow techniques. For operations making parts (such as tubs and vanities) that do not meet the guidelines described, beginning April 1, 1996, the hierarchy of controls specified in 29 CFR 1910.1000(e) will apply to reduce styrene exposures to the new 50 ppm TWA and 100 ppm STEL. In consequence, the burden of proof will be on the employer to show that engineering and work practice controls are not feasible for specific operations. However, with respect to boat-building operations the burden of proof would be on OSHNC to prove that the level could be attained solely through engineering and work practice controls.

Footnote (6) Regarding Carbon Dioxide only: no change was made to the PEL.

Footnote (7) Regarding Subtilisins only: this substance is not included in Table Z-1 below.

was 20 years and 8 months of age on the date of the purchase.

4. On July 29, 1994, Shambley was convicted, in Watauga County, of driving while impaired in violation of G.S. 20-138.1. On that same date, Shambley was issued by the Court a Limited Driving Privilege pursuant to G.S. 20-179.3.

5. The Limited Driving Privilege was issued to Shambley because Shambley's driver's license had been revoked as a result of his driving while impaired.

6. At some point after being issued the Limited Driving Privilege, Shambley made a photocopy of it and "whited out" his actual birth date of "08-07-74" which had been typed on the document. Shambley typed in "08-07-73." Shambley then photocopied the altered copy several times until the "white-out" was no longer visible. Shambley then soiled the falsified document to make it look used.

7. If Shambley had been born on August 7, 1973, he would have been 21 years of age on April 7, 1995.

8. The store clerk who sold alcohol to Shambley at Mountain View Texaco was Mary Winkler Duggins. When Shambley came to the check-out counter with the two six-packs and four wine coolers, Duggins asked Shambley for his I.D. Shambley produced a valid identification card from Appalachian State University with his picture on it, introduced as Exhibit P3, and the falsified Limited Driving Privilege, introduced as Exhibit P2.

9. The Limited Driving Privilege introduced as Exhibit P2 appears to be a valid ORDER issued by the North Carolina General Court of Justice. The falsified birth date does not appear to be falsified.

CONCLUSIONS OF LAW

1. Respondent has produced evidence of facts that reasonably indicated at the time Shambley purchased the alcoholic beverages on April 7, 1995 that Shambley was at least 21 years of age.

RECOMMENDED DECISION

It is recommended that no action be taken against Respondent.

RECOMMENDED DECISION

**NORTH CAROLINA DEPARTMENT OF
ENVIRONMENT, HEALTH AND NATURAL
RESOURCES, DIVISION OF MARINE
FISHERIES**

This matter was heard before Administrative Law Judge Sammie Chess, Jr., on September 15, 1995 in Burgaw, North Carolina.

Petitioner filed a Petition for a Contested Case Hearing on March 23, 1995 in order to appeal respondent Division of Marine Fisheries' Notice of Intent to Terminate petitioner's Shellfish Lease No. 536.

For Petitioner: Robert I. Swinson, Sr., *pro se*
1672 Watts Landing Road
Hampstead, NC 28443

For Respondent: Jay L. Osborne
Assistant Attorney General
N.C. Department of Justice
P.O. Box 629
Raleigh, North Carolina 27602-0629

1. Whether respondent properly intends to terminate petitioner's shellfish lease, pursuant to N.C.G.S. § 113-202, 15A NCAC 30 .0200 *et seq.* and rules referred to or incorporated there in, for failure to locate and mark shellfish lease no. 536 in its proper location? Petitioner expressly does not contest Respondent's March 3, 1995 NOTICE OF DENIAL OF SHELLFISH LEASE APPLICATION and all issues associated with said DENIAL are not before this court.

The undersigned makes the following:

FINDINGS OF FACT

A. Events Culminating in the Filing of this Contested Case

1. In January 1994, respondent North Carolina Division of Marine Fisheries received a complaint concerning the posted size of lease number 536. The complainant complained that Lease No. 536 was not properly marked and that it was encompassing within its boundaries a natural shellfish bed in violation of N.C.G.S. § 113-202. (Tp 23, R11 and 12).

2. In response to the complaint respondent, through the office of Mike Marshall Section Chief of the Resource Enhancement Section (Tp 14), requested that Mr. Loie Priddy survey lease no. 536.

3. Mr. Loie Priddy is a Registered Land Surveyor in the State of North Carolina and is chief of the Coastal Survey Unit for the North Carolina Geodetic Survey. (Tp 51, R11).

4. On February 22, 1994, Mr. Loie Priddy completed a certified survey of, among other things, the actual lease location of Lease Number 536 as compared to the area posted as lease number 536.

5. Based on Mr. Loie Priddy's survey, former Division of Marine Fisheries Director William T. Hogarth issued a *NOTICE OF INTENT TO TERMINATE SHELLFISH LEASE 536*, addressed to Robert Swinson and dated March 17, 1994.

B. Legal Provisions of Shellfish Lease No. 536

6. Renewal Lease of Shellfish Bottom, Lease No. 536, contains the following legal description:
Beginning at a stake in Bluff Bay, Pender County, N.C., said stake being approximately 300 yards in a northeasterly direction from Bluff Point and runs S. 54°-05' W. 348 feet to a stake; thence N 23°-5' W. 910 feet to a stake; thence N. 60°-15' E. 321 feet to a stake; thence S. 25°-12' E. 872 feet to the beginning, containing 6.8 acres.

7. The legal description of the shellfish lease no. 536 has not changed since the original lease no. 536 was granted to lessee W.S. Dowless in 1951. (See Respondent's Exhibits 1 - 10).

8. Robert I. Swinson, Sr. is the lessee and the State of North Carolina is the lessor of a *RENEWAL LEASE OF SHELLFISH BOTTOM*, Lease number 536. Lessor and lessee entered into this renewal lease on June 13, 1991. The lease term runs for a period of ten years from April 1, 1991. (Respondent's Exhibit Number 1 ("R1")).

9. Paragraph 2 of the terms of lease number 536 provides that, "this Lease is subject to all of the provisions of N.C. Statutes now in effect or hereafter enacted and all of the regulations of the North Carolina Marine Fisheries Commission now in effect or hereafter adopted." (R1).

10. Paragraph 4 of the terms of the lease number 536 provide in part that "[i]t is agreed that upon failure on the part of the lessee to serve or carry out any of the above provisions or any of the provisions incorporated by reference or any of the following conditions imposed on the leased premises by the Secretary of the North Carolina Department of Environment, Health and Natural Resources, this Lease shall be terminated."

C. Determination of the Legal Boundaries of Lease No. 536

11. Testimony by both registered land surveyors, Mr. Priddy (for the respondent) and Mr. Padgett (for the petitioner), concluded that the legal description of Lease No. 536 alone was too vague to determine its proper location. The initial point at which to begin the survey is outlined in lease no. 536 as follows: "Beginning at a stake in Bluff Bay, Pender County, N.C., said stake being approximately 300 yards in a northeasterly direction from Bluff Point...." Neither Mr. Priddy nor Mr. Padgett could locate the stake in Bluff Bay. Neither Mr. Priddy nor Mr. Padgett could locate a definitive point to be Bluff Point. Neither surveyor could determine from the lease description the starting point to survey lease no. 536.

12. Mr. Priddy testified that "ties" are used by registered surveyors to determine the boundaries of surveys. Ties are fixed points on which a surveyor can rely for accuracy. A surveyor "ties in" to a fixed point and plots his or her survey from this beginning point. Mr. Priddy offered uncontroverted testimony that registered land surveyors are taught to rely first on naturally occurring markers to establish a tie and that such reliance is the professional standard for registered land surveyors. (Tp 81). As stated above, Bluff Point was not a definable tie for surveying purposes.

13. Both surveyors testified that, given coastal weather and water conditions, boundary stakes of shellfish leases shift and move. (Tp. 154, 168).

1. Petitioner's Survey

14. Petitioner's submitted survey purports only to mark the boundaries of Lease No. 536 as it is posted in the water. Registered Land Surveyor Danny Marco Padgett performed the survey and completed the accompanying map of the survey. Mr. Padgett testified that from the legal description of Lease 536, it was impossible to accurately locate the legal boundaries of Lease No. 536. Therefore, Mr. Padgett "actually surveyed the posted line that is posted there [in the water] today [August 1995]. That is what this survey (petitioner's exhibit 1) represents." (Tp. 153).

15. Mr. Padgett testified that the orientation of Lease No. 536 as posted inaccurately varies from its legal description by 14 to 24 degrees. (Tp 163). Mr. Priddy also testified that lease no. 536 is oriented inaccurately. Mr. Padgett's survey in part ties Lease No. 536 in with stakes of other leases as those leases are marked in the water. (Tp 168). Mr. Padgett's survey does not purport to tie in lease no. 536 with the legal descriptions of other leases. (Tp 169). Petitioner offered into evidence no survey marking the legal boundaries of Lease No. 536, and only offered evidence of lease no. 536 as posted in the water.

2. Respondent's Survey

16. Mr. Priddy testified that in order to accurately determine the legal boundary of lease No. 536, legal descriptions of adjoining shellfish leases (active and inactive) must be examined and a "lease chain reconstruction" must be completed. "Lease chain reconstruction" examines leases with common boundaries or close boundaries and attempts to establish a contiguous chain of leases until a good "tie" can be determined.

17. Using "lease chain reconstruction," Mr. Priddy testified that he examined leases and former leases which adjoined lease no. 536. By determining a common boundary line between lease no. 536 and adjoining leases, a surveyor could determine an accurate "tie" on an adjoining lease. By plotting the leases and their adjoining boundaries, a surveyor can use the "tie" on one lease to determine the legal boundaries of lease no. 536. (See Respondent's Exhibit 14).

18. (Former) lease no. 615 declared two of its boundary points to be located on two points of marsh in Bluff Bay. Mr. Priddy testified that these two points were very prominent and specific. (Tp 76). Mr. Priddy testified that these two points were shown geographically on the original survey of Lease No. 615. (Tp. 83). Mr. Priddy testified that these two points offered the best "tie-ins" to reconstruct the legal position of the lease. Surveyor Padgett, while doubting the accuracy of any relevant "tie in" point, testified that "it's [the two boundary points in lease no. 615] the most accurate thing that's out there in the area, yes." (Tp 174).

19. As Chief of North Carolina's Coastal Survey Unit, Mr. Priddy has worked with the problem of erosion as it relates to coastal surveying. (Tp 52). Mr. Priddy has completed several publications on the topic of erosion as it relates to coastal surveying. (Tp 52).

- A. Mr. Priddy testified that in his opinion erosion would not be a significant factor on the boundary points of lease no. 615 because the area does not have the necessary prevailing wind to cause significant erosion. Also, because of barrier islands on the opposite shoreline are relatively close and tree lined, there is not enough distance over the water to create enough "fetch" to cause significant erosion. (Tp. 106, line 18 to Tp 107, line 3). Mr. Priddy testified that, given the geographical and weather conditions of the area, these points could have eroded approximately ten feet since 1951. (Tp 170).
- B. Surveyor Padgett testified that, relative to conditions associated with the rest of the coast, the area where lease no. 536 is located "certainly would be a low erosion area." (Tp 173).

20. Mr. Priddy surveyed and platted the following lease construction as illustrated in R14:

- A. The legal descriptions of lease nos. 535 and 536 show that the western boundary of former lease no. 535 adjoins the eastern boundary of petitioner's lease no. 536. (R14 and 16).
- B. The eastern boundary of former lease number 535 adjoins the western boundary of former lease no. 558.
- C. One of the two "tie in" points, located in former lease no. 615, lies approximately 40 yards to the southeast of the southeast corner of former lease no. 558, matching the legal description of lease no. 615: "...said stake lying approximately 40 yards in a southeasterly direction from the southeast corner of the W.G. Edens lease...." (R18).

Respondent's survey (R14) illustrates, when tied in to the natural boundary markers of lease no. 615, the legal boundaries of lease no. 536.

CONCLUSIONS OF LAW

21. All parties are properly before the Office of Administrative Hearings, and the Office has jurisdiction over the parties and the subject matter.
22. All parties have been correctly designated, and there is no question as to misjoinder or nonjoinder.
23. N.C.G.S. 1-45.1 provides that lands submerged by navigable waters are subject to "public trust rights" and are held in trust by the State for the use and benefit of the people of the State of North Carolina in common. They are established by common law as interpreted by the courts of this State. They include the right to ... fish ... and the right to freely use and enjoy....
24. N.C.G.S. § 113-202(a) provides that, in order to increase the use of suitable underlying coastal fishing waters for the production of shellfish, the Secretary of the Department of Environment, Health and Natural Resources may grant limited rights to shellfish cultivation leases on public trust submerged lands. Suitable areas for shellfish leases must meet, among other standards, the following minimum standard:
(a)(2) The area lease must not contain a natural shellfish bed.
25. Where the rights of exclusive shellfish harvest pursuant to a lease ends, the public's right to harvest shellfish begins.
26. Title to real property held by the State and subject to public trust rights may not be acquired by adverse possession. N.C.G.S. 1-45.1. The doctrine of adverse possession does not apply to leases. See, e.g., *State ex rel Rohrer v. Credle*, 322 N.C. 522, 534, 369 SE2d 825 (1988); *Mizell v. Ewell*, 27 N.C. App. 507, 219 S.E.2d 513 (1975); *Webster's Real Estate Law in North Carolina*, Third Edition, 234.
27. A lease must include a definite description of the property leased. *Advertising, Inc. v. Harper*, 7 N.C. App. 504 (1970). A latent ambiguity occurs when the words of the legal instrument are plain and intelligible, but extrinsic facts are necessary to identify the person or thing mentioned therein. *Redd v. Taylor*, 270 N.C. 14, 22. If extrinsic evidence does not sufficiently identify lease boundaries, then the lease is void because of vagueness. See, e.g., *id.* at 24.
28. Petitioner has the duty to accurately survey and mark his lease. 15A NCAC 30 .0204. 15A NCAC 30 .0204(a)(1)(A) requires in pertinent part that "stakes be firmly driven into the bottom of each corner (of the lease)." Petitioner carries the burden of proof to show that his lease as posted in the water comports with the legal description contained within the lease.
29. Petitioner submitted a plat of lease no. 536 as marked in the waters of the State. Petitioner does not purport to submit a survey showing the boundaries of the lease derived from its legal description. Petitioner's surveyor testified that the legal description of lease no. 536 could not be surveyed and marked on the water because of the vagueness of the description.

If petitioner's survey were the only evidence before this court to prove the legal boundaries of lease no. 536, this court would be required to void petitioner's lease. Petitioner's lease contains latent ambiguities regarding its boundary description and petitioner's extrinsic evidence does not clarify those ambiguities.
30. Respondent offers the only evidence which purports to plot the legal boundaries of lease no. 536.
31. Respondent performs "lease chain reconstruction," an analysis in accordance with the professional standards of registered land surveyors, in order to determine the legal boundaries of lease no. 536. Through "lease chain reconstruction," respondent presents extrinsic evidence which sufficiently identifies the legal boundaries of lease no. 536.

Based on the foregoing Findings of Fact and Conclusions of Law, the undersigned makes the following:

RECOMMENDED DECISION

The Secretary of the Department of Environment, Health and Natural Resources should uphold respondent's NOTICE OF INTENT TO TERMINATE SHELLFISH LEASE NO. 536. If petitioner fails to meet the directives contained within the NOTICE (R13) within 30 days of the issuance of the final decision in this matter, then petitioner's

lease should be terminated and petitioner should be sent a NOTICE OF FINAL TERMINATION in accordance with N.C.G.S. § 113-202(m).

ORDER

It is hereby ordered that the agency serve a copy of the final decision on the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, N.C. 27611-7447, in accordance with North Carolina General Statute 150B-36(b).

NOTICE

The agency making the final decision in this contested case is required to give each party an opportunity to file exceptions to this recommended decision and to present written arguments to those in the agency who will make the final decision. N.C.G.S. 150B-36(a).

The agency is required by N.C.G.S. 150B-36(b) to serve a copy of the final decision on all parties and to furnish a copy to the parties' attorney of record and to the Office of Administrative Hearings. The agency that will make the final decision in this contested case is the Secretary of the Department of Environment, Health and Natural Resources.

This the 29th day of March, 1996.

DOROTHY J. GRAYS,
Petitioner,

v.

**DIVISION OF MOTOR VEHICLES,
N.C. DEPARTMENT OF TRANSPORTATION
Respondent.**

RECOMMENDED DECISION

THIS MATTER was heard before Robert R. Reilly, Jr., Administrative Law Judge, on December 11, 12, 18, 1995 and January 24, February 22 and 23, 1996. The case was originally scheduled for hearing on February 27, 1995. Respondent's Motion to Continue was allowed and the case was rescheduled for August 23-25, 1995. On August 14, 1995 Respondent again moved to continue citing witness problems. The motion was granted and the hearing rescheduled for December, 1995.

BACKGROUND

The Petitioner initiated this contested case on September 30, 1994 in order to appeal the Respondent Agency's June 7, 1994 decision to dismiss her for unacceptable personal conduct. Respondent claimed that Petitioner, as a title examiner, knowingly accepted altered title documents and exhibited a pattern and practice of accepting altered title documents between January 2, 1992 and March 4, 1994. Petitioner denied all charges.

ISSUES

1. Whether Respondent had "just cause" to suspend and subsequently dismiss Petitioner for unacceptable personal conduct within the meaning of N.C. Gen. Stat. 126-35?
2. Whether Respondent violated State Personnel policy and regulations governing predissmissal conferences (25 NCAC .01J .0600) when it failed to show Petitioner any of the 237 documents (alleged to have been altered) during the predissmissal conference or at any other time prior to her dismissal?

R-243 List of titles prepared under the supervision of Inspector Wesley Denton

Based upon sworn testimony of witnesses and documents admitted into evidence, the undersigned makes the following:

FINDINGS OF FACT

1. Petitioner was employed by the N.C. Department of Transportation in the Division of Motor Vehicles from January, 1971 through June 7, 1994. Her initial position classification was that of Clerk I.
2. On October 1, 1989 petitioner was promoted to a title examiner V position (SG 61) in the Vehicle Registration Section and assigned to the dealer unit of the Raleigh Window. Her duties included, inter alia, processing 60-70 title documents daily with three (3) supervisor complaints per week (P. Exh.7 & 18).
3. Petitioner's work performance evaluation completed on October 31, 1989 showed that she processed 32 title documents daily with 28 supervisor complaints during the thirty (30) day evaluation period. Her performance rating was evaluated at level one (1), the lowest and worst assignable (P. Exh. 7).
4. In November, 1989 petitioner made processing errors by failing to collect fees; she was counseled by her supervisors (P. Exh. 18).
5. On June 21, 1990 respondent issued a performance appraisal to the petitioner for preceding four (4) month period beginning February 21, 1990 (P. Exh. 6).
6. For the appraisal period mentioned above, petitioner was expected to process 54-64 title documents or rejections daily with 9-10 supervisor complaints every nine (9) months. Her actual performance showed 53 title documents processed per day with 20 supervisor complaints. Respondent assigned petitioner a performance rating level of 1.5 or poor (P. Exh. 6).
7. During the appraisal period November 1, 1989 through February 20, 1990, respondent stopped counting petitioner's errors for one month at the petitioner's request and provided training. Her performance was rated below average (P. Exh. 5).
8. On March 25, 1991 respondent issued a performance appraisal to petitioner that showed that she processed 55 title documents daily with 22 major errors during the grading cycle. Her performance was rated at level G or good (P. Exh. 4).
9. On March 22, 1992 respondent issued a performance appraisal to petitioner citing her need to control title errors and increase production. She showed average performance in completing the title work according to the narrative appraisal summary (P. Exh. 3).
10. For the period March 21, 1992 March 31, 1993, respondent issued a performance appraisal to petitioner, a title examiner V, showing her title errors doubled after the October, 1992 work plan was implemented (P. Exh. 2 & 18).
11. For the appraisal period mentioned above, petitioner processed 58 title documents daily with thirty-five (35) title and license errors. The error factor was far below satisfactory according to her supervisors (P. Exh. 2 & 18).
12. On October 21, 1993, respondent issued an interim appraisal to petitioner citing her for committing eleven (11) title errors while processing title documents and for showing no performance stability. Petitioner processed fifty-two (52) title documents daily (P. Exh. 1).
13. On May 12, 1994 respondent suspended petitioner without pay pending an investigation into allegations that she knowingly accepted 237 altered or modified title document between January 2, 1992 and March 4, 1994 (P. Exh. 10).
14. For three (3) months prior to the May 12, 1994 suspension, respondent secretly monitored petitioner's title processing work at the Raleigh window. Respondent became aware of the altered title document allegations against

petitioner in January, 1994.

15. As a result of monitoring petitioner's work, respondent found two (2) title documents which appeared to contain alteration of some type. Respondent did not confront petitioner nor attempt to determine whether she knowingly processed the two title documents.

16. Upon suspending petitioner on May 12, 1994, respondent did not allow, nor offer to allow, petitioner to review or examine any of the 237 altered or modified title documents she was accused of knowingly accepting and processing. In her twenty-three (23) career with respondent, petitioner had never received a disciplinary action prior to her suspension.

17. As a title examiner, petitioner processed approximately 250 title documents per week and 1,000 per month based upon her performance appraisals' "actual results and comments" from March 21, 1992 through March 31, 1994 (P. Exhs. 1 & 2).

18. Between January 2, 1992 and March 4, 1994 petitioner processes about 27,000 title documents at the Raleigh window. Respondent appraised her work on three (3) occasions during that period. At no time did respondent raise any allegation that petitioner knowingly accepted altered or modified documents (P. Exhs. 1, 2 & 3).

19. On the afternoon of June 5, 1994 petitioner received a telephone call at home from respondent informing her of a predissmissal conference. The meeting was scheduled for June 6, 1994 at 9:00 A.M. in the office of Phil Henry, Director of Vehicle Registration.

20. Petitioner attended the predissmissal conference and denied that she knowingly accepted altered or modified title documents at any time while working as a title examiner.

21. At the conference respondent provided petitioner with a letter which referenced the altered title allegations. Attached to the letter was an eight (8) page list of titles by date processed, vehicle id number and processing error (P. Exh. 11).

22. At no time during the predissmissal conference did respondent allow, or offer to allow, petitioner to review or examine any of the 237 title documents listed in the June 6, 1994 letter (P. Exh. 19, Tape recording of conference).

23. In late June, 1994 following her dismissal, respondent allowed petitioner to review and examine the 237 title documents in question. Due to the volume of documents, petitioner continued her examination of same into July, 1994.

24. During her review of the title documents at the time mentioned above, petitioner identified three (3) documents which were processed by title examiners other than herself (P. Exhs. 13, 14 & 15).

25. For the period January 2, 1992 through March 4, 1994, Respondent found some twenty-two (22) altered or modified title documents which were processed by title examiners other than petitioner. None of those examiners were dismissed from employment.

26. By letter dated June 7, 1994 respondent terminated petitioner's employment based upon the allegations 1) that she knowingly accepted altered title documents with application for N.C. certificate of title and 2) that she exhibited a pattern and practice of accepting altered documents causing titles to be improperly issued on 237 vehicles between January 2, 1992 and March 4, 1994 (P. Exh. 12).

27. At hearing, altered or modified title documents were described exhaustively as any documents accompanying an application for N.C. certificate of title which contained erasures, white-outs, write-overs, strike-throughs, darkened numbers for mileage, dates, etc., questionable mileage figures between title transfers, inconsistent mileage figures on application documents, incomplete documentation, questionable dates of title transfer, absent dealer numbers, questionable dealer numbers or identification, missing brands, missing odometer disclosure statements, paper creases obliterating numbers or letters on documents, fictitious title documents, holes in documents, missing manufacturer's certificate of origin (MCO), mileage missing on MCO, non-conforming title documents, non-certified odometer statements, unsigned or un-notarized affidavits, etc. (P. Exhs. 11 & 17).

28. Some documents (218) processed by petitioner at the Raleigh window between October, 1989 and January 1,

1992 met the above definition of altered or modified title documents (P.Exhs. 17, 17A-17V). This occurred before January 2, 1992, the date respondent alleged that petitioner began knowingly accepting altered or modified title documents (P. Exhs. 17, 17A-17V).

29. Petitioner's method of processing title documents accompanying applications for N.C. certificate of title was the same before and after January 2, 1992. Processing errors made before that date were also made in 1992, 1993 & 1994.

30. Consequently, petitioner unknowingly accepted some altered or modified title documents when she began working at the Raleigh window in October, 1989. Petitioner continued to do so unbeknownst to her until her suspension on May 12, 1994. None of respondent's performance appraisals cited this as a concern with petitioner's work (P.Exhs. 1,2,3,4,5,6,7 and 18).

31. The evaluations of petitioner's job performance by respondent between October, 1989 and March 4, 1994 consistently showed petitioner to be a title examiner who regularly made title errors. However, respondent's appraisals and reviews failed to identify any intent or purpose by petitioner to accept altered or modified documents (P.Exhs. 1,2,3,4,5,6,7 and 18).

32. Petitioner did not knowingly accept altered or modified title documents between January 2, 1992 and March 4, 1994.

33. Any job performance patterns or practices followed by petitioner as a title examiner at the Raleigh window began with her initial employment there in October, 1989. By January 2, 1992 or two (2) years later, petitioner's title processing performance, albeit it less than satisfactory, was well established and a matter of record in her performance appraisal reviews (P.Exhs. 1,2,3,4,5,6,7 and 18).

34. On no occasion did Petitioner's immediate supervisor observe any altered or modified title documents while reviewing or evaluating her title work during performance review appraisals.

Based upon the foregoing Findings of Fact, the undersigned makes the following:

CONCLUSIONS OF LAW

1. Petitioner was a permanent State employee within the meaning of that term as defined in North Carolina General Statute Section 126-39, at the time of her dismissal in June 7, 1994. The Office of Administrative Hearings has jurisdiction to hear Petitioner's appeal where she has alleged that Respondent lacked just cause to terminate her employment without warning and where she has alleged that Respondent committed procedural violations while implementing the dismissal. North Carolina General Statutes Section 126-35.

2. North Carolina General Statutes Section 126-35(a) provides, in part, that "[N]o permanent employee subject to the State Personnel Act shall be discharged...for disciplinary reasons, except for just cause." Where just cause is an issue, the Respondent bears the ultimate burden of persuasion. A just cause issue involves both procedural and substantive questions. Causes for dismissal fall into two categories: (1) Causes relating to performance of job duties and, (2) causes relating to personal conduct - no prior warnings are required under (2).

3. The Petitioner was not discharged for just cause.

4. According to the State personnel policy governing disciplinary actions taken on or before June 7, 1994, a predismissal conference was to be held following advance notice to the employee. "[I]n the conference, the supervisor shall give the employee oral or written notice of the recommendation...The employee shall have an opportunity to respond to the proposed dismissal, to refute information supporting the recommended dismissal action and to offer information or arguments to support his position. Every effort shall be made by the supervisor or the designated management representative to assure that the employee has had a full opportunity to set forth any information in his possession in opposition to his dismissal prior to the end of conference."

Respondent violated this policy during the predismissal conference when it failed to allow, or offer to allow, petitioner to review or examine any of the 237 altered or modified documents she was alleged to have knowingly

accepted and processed between January 2, 1992 and March 4, 1994. At the conference petitioner could not remember processing any of the 237 documents (identified to her only by date, vehicle identification number and processing error) listed by respondent; therefore she was not afforded any opportunity to refute information supporting the recommended dismissal action or to offer information or arguments to support her position beyond a general denial of wrongdoing. In addition, the only notice of conference issued by respondent was a telephone call to petitioner's home on the day prior to the predismissal conference with a message regarding the time and place of the meeting. Consequently, respondent violated both the letter and the spirit of the personnel policy governing the conduct of predismissal conferences.

5. Respondent's actions, or lack thereof, upon learning of the altered title document allegations in January, 1994 were inconsistent with its claim that Petitioner's conduct was unacceptable. For the five (5) month period, January through May 11, 1994, Respondent never raised the issue of unacceptable personal conduct with petitioner; its secret monitoring of the title documents processed by the petitioner February through May, 1994 produced only two alleged altered or modified documents; in addition, during that period, on March 28, 1994, respondent issued a performance appraisal review to petitioner 1) containing no reference whatsoever to any unacceptable personal conduct allegations then under investigation and 2) rating her job performance as "very good."

6. No evidence showed that petitioner knowingly accepted altered or modified title documents between January 2, 1992 and March 4, 1994; evidence revealed that petitioner processed title documents at the Raleigh window in the same manner from October, 1989 through May 12, 1994, the date of her suspension.

7. Respondent has not proven by a preponderance of the evidence that the petitioner knowingly accepted altered or modified title documents between January 2, 1992 and May 4, 1994 or that petitioner exhibited a pattern and practice of engaging in such conduct knowingly.

Based upon the foregoing Findings of Fact and Conclusions of Law, the Administrative Law Judge Presiding make the following:

RECOMMENDED DECISION

That the State Personnel Commission order the petitioner reinstated to her former position of the title examiner V effective May 12, 1994, with back pay, front pay, where applicable, attorney fees and all the benefits of continued permanent employment with the State as of that date. That the Commission further order that respondent expunge from petitioner's personnel file all documents related to this dismissal.

ADDENDUM

The parties engaged in discovery for several months in preparation for hearing. Respondent was allowed two continuances based upon the unavailability of its witness(es) who resided in the Maryland-Washington, D.C. area. No de bene esse trial depositions were taken by respondent.

At hearing, respondent's witnesses failed to appear and had not been commanded to appear. Respondent made motions 1) to offer the testimony of Ali Soltanifa, who was convicted on December 11, 1995 of felony fraud charges in the United States Middle District Court of North Carolina 2) to offer triple hearsay testimony through Wesley Denton, an employee of Respondent and 3) to offer into evidence certain telephone records and numbers from an unavailable witness and petitioner. Based upon North Carolina Rules of Evidence 803 and 804 and in the interests of justice, the motions were denied. Respondent's written offer of proof on these items was made part of the record.

ORDER

It is hereby ordered that the agency serve a copy of the final decision of the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, N.C. 27611-7447, in accordance with North Carolina General Statute 150B-36(b).

NOTICE

The agency making the final decision in this contested case is required to give such party an opportunity to file exceptions to this recommended decision and to present written arguments to those in the agency who will make the final decision. G.S. 150-36(a).

The agency is required by G.S. 150-36(b) to serve a copy of the final decision on all parties and to furnish a copy to the parties' attorney of record and to the Office of Administrative Hearings.

The agency that will make the final decision in this contested case is the State Personnel Commission.

This the 12th day of April, 1996.

Robert Roosevelt Reilly, Jr.
Administrative Law Judge Presiding

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
